Accessorise your drilling to perfection

RELIABILITY UNPARALLELED POWER UNMATCHED

Top Hammer Accessories

Shank Adapters

The shank adapters are manufactured from specially selected alloy steels followed by heat treatment through carburizing which withstands the high impact power of drilling. This product line has been recently introduced by Mindrill and the quality is highly appreciated by the end users. Presently we maintain stock of few selected fast moving categories but we can undertake manufacturing of the same as per customers requirement, if

Shank Adapters

Coupling Sleeves

Coupling Sleeves, other name is coupling, when using rock drills with male shank adapters and a conventional drifter rod, a coupling is required to join the adapter to the rod ensuring the ends touch for efficient energy transmission.

Thread size : R22, R25, R28, R32, R38, T38, T45, T51;

Coupling sleeve design : full bridge coupling sleeve, semi-bridge coupling sleeve.

Coupling Sleeve

Top Hammer Bits

Top Hammer Bit sizes are relative to both drill steel, and the application being performed.

Button bit diameter : 38mm to 152mm;

Button bit thread : R22, R25, R28, R32, R35, R38, T38, T45, T51, OT60, ST58, ST68, 5R32, 5R35;

Button bit face design : flat face, dome face, drop center face;

Button bits carbides style : hemi-spherical(round), Parabolic(semi-ballistic), Ballistic(conical).

DTH Hammer Accessories

DTH Button Bits

DTH button bit diameter: 76mm to 311mm

DTH button bit shank style: More than 50 various shanks as per customer requirement including DHD3.5, DHD340, DHD350, DHD360, DHT380, COP34, COP44, COP84, SD5, 506, SD8, QL40, QL50, QL60, QL80, Mission 40, Mission 50, Mission 60, BR2, BR3, Mach33 etc.

DTH button bit face design: Flat face, convex face, concave face.

Drilling Accessories

Mindrill Air Line Accesories

ensure 100% reliability and maximum output from Pneumatic Breakers and Rock Drills. Precise machining and attention to the smallest details give high performance, reliability and very low maintenance requirements. Maximum power output depends on the entire system. Poor quality Air Line Accessories may reduce the performance of Pneumatic tools drastically.

Hose Clamp

Claw Coupling

ML30 Lubricator

ML30 is recommended for Pneumatic Breakers and Rock Drills. Its simple lightweight design means low pressure drop, reliable dosage and easy operation. ML30 doses the lubricant in proportion of the air flow after the oil supply is set.

ML30

Mindrill Large Capacity Lubricators – 2Ltrs To 30 Ltrs

Mindrill Large Lubricators are specially designed for heavy duty applications. Wide range is available from 2 ltrs to 30 ltrs. Its rugged and reliable design made it favorite for both drillers and managers.

Mindrill Large Capacity Lubricators

Breaker Accessories

Pneumatic Moil and Chisel Points

Mindrill manufactures a wide range of high quality pneumatic breakers Moil and Chisel Points. Available in standard shank sizes to suit any brand of Pneumatic Paving Breakers.

Pneumatic Moil and Chisel Point

Hydraulic Moil Points

Mindrill Moil Points are tough and reliable for hard hitting hydraulic hammers. Various points' shapes and shank sizes available to suit various manufacturers' equipment and models.
