

Split Set

Mindrill has been in the precision engineering industry with a world class production facility comprising CNC and VMC machinery, CNC grinding, sealed quench heat treatment furnaces, all led by an expert engineering team to ensure customer satisfaction. Mindrill Split Set friction rock stabilizers are manufactured to the highest standards achieved by stringent quality control and testing.

Key Features:

- High grade raw materials
- World class heat treatment through carburizing in sealed quench furnaces
- High impact power
- Long life

Options:

- Both male and female options available
- Custom made models available

MANUFACTURING SYSTEMS CERTIFIED BY TUV NORD ISO 9001:2008
