

MH501L Rock Drill

The MH501L Pneumatic Rock Drill is a winner when it comes to ease of use in tight spaces due to its low-weight and robust rifle bar rotation mechanism. This lightweight drill has been used for years for small jobs and are most suitable for mines with confined operator spaces. The drill allows miners to achieve depths of up to 1.5 metres (5 feet) with minimal air consumption. The T-grip handles along with its low-weight make the experience much more comfortable from the operator point of view. The air flushing system built into the drill rod prevents drill jamming by removing drill chips.

At its competitive pricing, the MH501L is the number 1 choice for use in small jobs. Characterised by low pricing and minimal running costs, the MH501L line of drills is the go-choice for small-scale exploration in confined regions and on difficult terrain because of its modest air consumption and low weight.

Key Features:

- Low Air Consumption
- Ergonomic Vibration Dampened T-Grip
- Robust Rifle Bar Rotation Mechanism
- In-built Air Flushing System
- Ideal for Drilling in Confined Spaces
- High Return on Investment
- Competitive Pricing

SPECIFICATIONS

	Metric	Imperial
Length	510 mm	20"
Weight	19 kg	42 lb
Bore Diameter	28 mm - 34 mm	1 1/8" - 1 3/8"
Stroke Length	60 mm	2 3/8"
Impact Rate	1980 BPM	
Air Consumption	39 l/s	83 cfm
Revolutions	190 RPM	
Penetration Rate	275 mm/min	10 3/4 in/min
Piston Diameter	55 mm	2 1/8"
Air Supply Hose ID	19 mm	3/4"
Steel Size (HEX) - Chuck End	22 mm x 108 mm	7/8" x 4 1/4"

Ordering Part Numbers:

MH501L	MH501SH
