

# MH504W Rock Drill

Generally used in combination with the MMK62S pusher leg, the MH504W rock drill are specially designed for small cross sectional drilling. These water flushed jackleg drills are perfect for driving drifts and tunnels. The low weight of the drills equipped with T-handles also enables them to be used as a sinker drill when necessary. The MH504W can be used on any terrain from soft to medium hard rock up to depths of 6 metres. This drill also has a robust kick-latch retainer for fast and convenient tool change.
