

MHJ15 Rock Drill

The MHJ15 is a one of its kind lightweight sinker rock drill with a multi position throttle for smooth start up. Its balanced weight distribution makes handling easy. With a conservative air consumption of about 27 litres/sec (56.5 cfm), this drill still manages to achieve impact rates of 2450 bpm with 250 rpm which is higher than even drills twice its weight and whose air consumption is more than double of the MHJ15. High quality raw materials and strong heat treatment processes ensure a long lasting drill with proven performance.
