

MMK 62S Pusherleg

The MMK62S is the undebatable choice when it comes to pusher legs for small applications. Its basic and hassle-free design makes the operation intuitive and it takes no time for operators to get used to it, saving time and money. With a feed control knob positioned right at the operator's fingertips, it makes the drilling operation much more manageable and under control. The large piston diameter accounts for high feed force whilst keeping the impact pressure low due to high surface area of contact, thus increasing machine productivity and product life.

Key Features:

- Feed control at optimum position
- Large piston diameter for high feed force and long product life
- Intuitive, hassle-free usage
- Simple and robust design
- Low cost

SPECIFICATIONS

Part No. - 5215 124 000	Metric	Imperial
Weight	17 kg	37.5 lb
Piston Diameter	53 mm	2 1/8"
Feeding Length	1300 mm	51"
Length Extracted	3115 mm	122"
Length Retracted	1815 mm	71"

MANUFACTURING SYSTEMS CERTIFIED BY TUV NORD ISO 9001:2008

MINDRILL SYSTEMS & SOLUTIONS PVT. LTD. is constantly striving to improve it's products and therefore reserves the right to modify materials, specifications and designs without prior notice. Technical data described here corresponds with the available information at the time of issue of design.
